[illegible] of Hard Times.—[illegible] how the [illegible] have [illegible] expenses in the aggregate [illegible] Every one has more or less of the [illegible] of money [illegible] of the actual gold pieces [illegible] Now if you have these things [illegible] dwindling under your eyes. The [illegible] to stop. You would [illegible] to buy [illegible] that, and the [illegible] but you know exactly how much money you have left and [illegible] on buying more things your purse will soon be empty. You do [illegible] this when you [illegible] You [illegible] and when the day of [illegible] you find you have overrun the [illegible]

On every hand we see people living on credit, putting off pay day to the last, making in the end [illegible] desperate effort either by begging or borrowing to scrape the money together, and [illegible] bringing on again, with the cankers of care eating at their hearts, to the [illegible] of bank-ruptcy. If people would only make a point at the beginning instead of the end, they would save themselves all this misery. The great secret of being solvent and well to do, and comfortable, is to get ahead of [illegible] expenses. Eat and drink this month what you earned last month. There are, no doubt, many persons so unfortunately situated that they can never accomplish this. No man can guard against ill health; no man can insure himself a well conditioned, full family, or a [illegible] income. There will always be people who cannot help their misfortunes. But as a rule, these unfortunates are far less trouble to society than those in better position who bring their misfortunes upon themselves by deliberate recklessness and extravagance. You may help a poor honest struggling man to some purpose. But the utmost you can do for an unthrift is thrown away.

The best pleasures, those that sweeten life most, and leave no bitterness behind, are cheap pleasures. What greater pleasure can a man enjoy than being free and independent? The man with his fine horse, his glittering carriage, and his banquets, for which he is in debt, is a slave, a prisoner, forever dragging his chain behind him through all the false world in which he moves. I will go out this morning with a consciousness that I owe no man anything, and even the bright day is earned and paid for, and I will walk to Highgate, and, being weary, hungry and athirst, I will enter a wayside inn and feast upon bread and cheese, wash it down with a mug of ale, and there will be no pleasure superior to mine in all Christendom.—*All the Year Round.*

Retribution.—The wealthier classes of the South, they who plunged the country into the horrors of civil war, are now feeling the truth and force of the old adage that "sorrow tracketh crime."

The Richmond *Whig*, speaking of those whose mad folly has cast them down from the height of affluence to their condition of penury, says:

Individual enterprise has raised many a despondent community to prosperity and affluence from scenes of despondency and woe into which we know hundreds of the citizens have been plunged by the conflagration of April 3d. We are glad to see, and the whole commonwealth will be to know, that this spirit pervades the people of Richmond, and that there is a disposition to rise like Phoenix from its ashes and reassert itself in iron and marble fronts. We do not believe Virginians will bestow much attention upon lagging; they should run ahead of them. We want the burnt district of Richmond to be rebuilt; she shall sit proudly again, like Rome, upon her seven hills. It was a sight, Saturday, for gods and men, to witness several merchants, who on the Saturday previous to the evacuation were worth five hundred thousand dollars, quietly sitting in the midst of the ruins of their marts, and temples of Mammon, it may have been, knocking the plaster from the dry and heated bricks, and jocosely contemplating the future. With a slight transposition we might give their song, as we thought we heard it as their trowels struck against the endless succession of debris:

"Bricks crushes to earth shall rise again,
The eternal years of mort' are theirs."

Notice.

SEALED PROPOSALS "IN DUPLICATE" will be received at the office of the undersigned until 12 M. Monday, June 5, 1865, for the supply of "FRESH BEEF" for the troops stationed at Fort Vancouver, W. T., for the fiscal year commencing July 1st, 1865, and ending June 30th, 1866.

Said Fresh Beef to be of a good and marketable quality, [illegible] proportions of fore and hind quarter meat, necks, shanks and kidney tallow to be excluded [illegible] such quantities as may be from time to time required, and on such days as shall be designated by the [illegible]

The necks of the cattle slaughtered shall be cut off at the fourth vertebral joint, and the breast trimmed down. The shanks of fore quarters shall be cut off from [illegible] inches above the knee-joint, and of hind quarters from six to eight inches above the gambrel joint.

Each bid required to be accompanied by a bond with at least two securities, in the sum of two thousand dollars for the faithful performance of the proposals contained in the bids, in case the bid is accepted.

No bid will be entertained without both Principal and Sureties to give undoubted proof of their loyalty to the Government of the United States of America.

All bids must state the price per pound in "currency."

The undersigned reserves to himself the right to reject any or all bids, that may be deemed unreasonable, or [illegible] other good and sufficient cause.

Proposals to be addressed to the undersigned, and endorsed thus: "Proposals for Fresh Beef."

OFFICIAL PAPER OF THE STATE

No Flag but the Old Flag—the Red White and Blue

Arise and defend it ... of the brave

SATURDAY MORNING, JUNE [illegible] 1865

Northern Idaho

That vast extent of country lying between Salmon and Clarke's rivers and extending from the junction of the Snake and Columbia to the Rocky Mountains is now engaging very general attention. Previous to the recent discovery of gold in large quantities on the Coeur d'Alene, much interest was manifested throughout the upper country in relation to the mines further east and the routes by which they could be approached. By the discovery of gold on the Coeur d'Alene a new impetus has been given to enterprise in that direction. From the limited data at hand, it is not yet possible to say whether the reports of the richness of the new mines are exaggerated or not. All accounts, however that we have from that region corroborate each other. All who have had any opportunity to know anything in relation to the matter concur in saying that the richness and importance of the new mines are not over estimated. Taking therefore their existence as a fact, other considerations of a nature which our State must feel an interest in next suggest themselves.

The accessibility of these new mines is a feature of the greatest importance. It will be readily seen that they can be reached more easily by way of the Columbia river, than by any other route. Water transportation may be had to a point from which the mines are accessible without difficulty in a very short time. Freight may thus be conveyed to the new mining region by way of Columbia river much more cheaply and expeditiously than it can be carried from any other quarter. In fact this is the natural line of supply for that whole region which lies north and east of Lewiston. It will be impossible for any other line to compete with this, as freight can certainly be carried from here to Coeur d'Alene as low as ten cents per pound, and probably for considerably less. It only needs for this to be proved to the miners and traders of the upper country. Those who have the control over, and the direction of the chief methods of transportation, will see both the utility and necessity of verifying the statements here made. Those who are interested in having cheap transportation must be made to understand that our merchants and carriers do not promise what they do not mean to perform. The distance from Lewiston to the place of the late discoveries, is said not to be more than one hundred and twenty five miles. To Lewiston steamboats may run during a considerable part of the season. Hence by the route indicated, the readiest means of approach to the mines of North Idaho are afforded.

The country east of the Bitter Root mountains, too, [illegible] attention. In a short time goods may be supplied to the traders of that section from this side at much lower rates than they have been accustomed to pay. Hitherto the mountains above [illegible] have proved a barrier to the transportation of merchandise from this side. It was necessary for packers to go around these mountains by a long circuit, rendering carrying quite expensive. A road is shortly to be completed from Lewiston on a direct line to Bitter Root valley and toward Hell Gate. These places lie directly east of Lewiston. So much shorter will the new route be that it is believed supplies can be furnished from this side much cheaper than from the other. Heretofore goods consumed beyond the Bitter Root mountains have mainly been received by way of the Missouri. This source of supply is uncertain, as that stream is not navigable at all seasons. Traders have been compelled to carry in a stock of sufficient magnitude to answer the demands of a whole year—a procedure both inconvenient and [illegible]. Hereafter these difficulties will be obviated by the opening of a new source of supply from this side. Goods may be carried into the places mentioned from this direction much later in the season than they can be had there by way of the Missouri river.

To this northern branch of trade, the attention of those concerned ought now to be particularly directed. It devolves on our merchants and carriers to convince the people of the upper country that goods can be furnished them by the Columbia river at cheaper rates than they can otherwise procure them. It is time for earnest action, nor is it admissible to talk of what can be done without manifesting and disposition to do it.

Specie and its Movements.—From exhibits lately made public by the Treasury Department it appears that the importations and exportations of specie during the last four years has been as follows

	IMPORTS.	EXPORTS.
1861.	$46,310 611	$29 791,180
1862.	16 415 452	36 887 640
1863.	9 675 580	82,364,483
1864.	13 113 012	105 125 740
Total,	$85,546,235	$354,169,052
Apparent loss,		268 622,817

Of these sums, the imports and exports of this coast and the East, stand relatively as follows

	IMPORTS	EXPORTS
This coast,	$6 702,190,54	$70,602,581 71
Eastern States,	78 844,044 46	283,566,470 29
Total,	$85,546,235,00	$354 169 052,00

Thus the Eastern States have apparently lost $204,722,425,80 in four years. In the meantime they receive from this coast $97,819,314. Thus there is a net loss of $106,903,111 in four years up to June 1864.

The whole imports of the United States for the year 1864, in specie value, were $329,562,895. The total exports for the same year, in specie value, were $161,961,120 for merchandise. The export of specie for the same period was $105,125,750. This leaves an excess of imports amounting to $72,476,025.

The amount of duties collected during the past four years has been as follows

1861,	$39,582 175
1862,	49 016 307
1863,	69 059 642
1864,	102,316 151

Thus it will be seen that the amount of duties paid in 1864, is nearly equal to the export of gold for that period.

An Alleged Discovery.—There are said to be floating rumors of the discovery of gold in large quantities somewhere not far distant from the Dalles. Parties at the Dalles profess to know that rich leads actually exist at a place but a comparatively short distance from that town. Secrecy, however, is enjoined and those who have been told of the matter are not permitted to divulge it. All reports about it are vague and may or may not be true. It is asserted that $7,000 have actually been taken out in one day, and that specimens of the rock on exhibition are worth $2 50 per ounce. Of course everybody hopes the story may prove true, but the cautious and incredulous think that the rumor "needs confirmation."

Further of the New Clearwater Diggings.—Mr. Nason who arrived yesterday from the Clearwater Station, informs us that men have got to work on the new hill diggings below that place and are realizing, in some instances, $40 a day to the rocker.—*Radiator.*

Letter from Canyon City — Quartz Discoveries

CANYON CITY, May 29, 1865.

Editor Oregonian:

What with the continuous excitement about quartz and the occasional alarms about Indian depredations and the glorious news from the East which points to the early dawning of peace, we who are shut up in the mountains at Canyon City, manage to kill the time of our imprisonment quite as well as we ought to expect. But yet, when we look back to the happy days when we lived in christian countries and contrast the enjoyments [illegible] with the hours of daily toil and unrest by night [illegible] and when we count [illegible] thousand heaps of incorrigible [illegible] gather during four or five years' mining life and how we have [illegible] them and crushed them as if they had been so many unpolished [illegible] and how all this toil and the privations [illegible] have been performed and endured [illegible], and how we still have hopes just as distant from fruition as when we first began, we are ready to despair and feel as if we had been all these long years voluntary tenants of a prison as cheerless as Libby. But these are dreams—nothing but very bad waking dreams. When I put my hand down into the cold water in my sluice box yesterday evening to find what it was that glittered so and took up a fine nugget, weighing fourteen dollars I did not feel such a horror of mining life. If I did owe that nugget and hold a dozen like it for grub bills contracted when I could not work my claims still the gold was mine for the time being and I had a right to enjoy it.

THE MINES.

The mines are again well at work. Some have got their claims open again and are rapidly recovering from the effects of the freshet. Others are cleaning out the sediment as fast as possible. The hill claims are being worked with cheering success. [illegible] Gulch and Long Gulch in this district are said to be paying handsomely. I saw to day a specimen just taken out of a claim in Long Gulch, which weighs near twenty dollars. It is very beautiful gold. There will be a large amount of gold taken out of the placer diggings in Grant county this season but the miners have been so much embarrassed by the long winter and high water, that it will take nearly the whole summer to clear themselves of liabilities created while work was impossible. The miner has had a hard time of it since last summer—did he ever have an easy one?

QUARTZ! QUARTZ!!

Everybody and everything has got quartz on the brain. Parties in from Middle Fork to day bring more exciting reports than any yet received. Whoever owns quartz on any of the main ledges in this region, thinks himself a millionaire. For once in my life I have caught the quartz contagion and I feel as if I must have some feet, if there is any chance to obtain them. But they are held at such figures as frighten me. One man informed me to day that I might have a part of his quartz on the Elk Creek Ledge, at $25 per foot! Of course I bought it! But there's no use talking; there is cause for excitement. I have seen the result of six pounds of quartz from the Elk Creek Ledge pulverized in a mortar and "horned out," as the miners say. The result was astonishing! There seemed to be an infinite number of colors found. There was more than I ever before saw taken from twice the amount of rock. And yet it is not pocket quartz. The gold is invisible to the naked eye while in the rock, and very little can be seen with the glass. But when it is pulverized and "horned" the sight is enough to give any one the quartz fever. I saw a few ounces from the Mammoth Ledge crushed and "horned" in the same manner, and the prospect was not less encouraging. The gold in this ledge is a little more coarse than that of the Elk Creek, but it is pretty certain that there is no pocket quartz in the district. I have seen, also, the result of a pan of dirt taken from the earth adjoining the Elk Creek Ledge.

This shows most certainly that the gold is plentiful in the quartz. This gold is very fine—as fine as flour—and is evidently the sediment of decomposed quartz. Vincent's creek still prospects well, though there is not so much said about it now, since the Middle Fork has so engrossed the attention of quartz mongers. There are other ledges of quartz, some of silver, just coming into notice, but what they are worth I cannot tell. I will keep you posted in the matter of quartz, as fast as developments take place.

OTHER THINGS.

To day I had the pleasure to behold a bag of placer, creek dust taken out of the Pioneer Company's claims on Elk creek. It is coarse washed gold, and resembles that brought from Cariboo or Kootenai. I predict there will be a grand rush to the Middle Fork of John Day river, as soon as the mineral wealth of that region shall be even partially known.

The road is open now entirely through to Boise by the way of Canyon City and I am of opinion that this is decidedly the nearest and best road from the lower countries to Boise and Owyhee. But I do not pretend to know much about the matter, and my opinion may be founded in local prejudice. More some time. RAFFAELLE

The Bark "Brontes" and Steamer "Colon.—For several days there has been much excitement at San Francisco in regard to the seizure of these two vessels. From scattering fragments of telegraphic news we gather the following inferences:

The bark *Brontes* was about to sail for a Mexican port ostensibly to convey emigrants to that country. Several hundred persons had collected on board supplying themselves with small arms, proper equipments, &c. The French Consul at San Francisco learned of the expedition and protested against the departure of the vessel. Accordingly the bark was detained. Nothing could be heard from Washington as to whether the adventurers were to be allowed to proceed, so finally they came on shore. Afterwards it was hinted that they intended to seize the Peruvian steamer *Colon* then lying in the harbor, put to sea and operate against French commerce. It was alleged that arms had been transferred to the steamer and that she was to run out in the night time to sea. The armed vessel *Shubrick* was at once sent to lay alongside of the *Colon* and prevent her departure. Several persons supposed to be concerned in the matter have been arrested. At last advices, the *Shubrick*, with steam up was lying in such a position as to prevent either the *Brontes* or the *Colon* from putting to sea. The matter is undergoing investigation.

Henry S. Foote.—This rebel whose only claim to distinction lies in his wonderful versatility in meanness is announced by telegraph as being on his way to California. He is probably coming out with a view to assist in the reorganization of the "Democratic" party—a work which the "Democratic" papers of the East have stated would be begun on this coast. Crowds of "Democrats" from the rebel armies and guerrilla bands of the South west may be expected to follow him. This rebel Foote, guilty of treason as he is, ought not to be permitted to go at large through the country, impudently claiming and unjustly enjoying the same rights which loyal citizens possess. It really looks as if our authorities are forgetting that the Constitution defines the crime of treason and that the acts of Congress provide for its punishment. Of course if citizen Foote should be arrested for treason our Copperhead papers would denounce the authorities therefor and indignantly demand proof of any overt act by him. He has been in California before, and in fact has made himself known through out the whole country, North and South, but has always been regarded as a most precious scoundrel.

New Paper in Owyhee.—The California papers say that material for publishing a newspaper in Silver City has been purchased at San Francisco and shipped for Owyhee. It is to be called the *Owyhee Avalanche*. The first number will appear about the first of July. John Wasson, Joseph Wasson and [illegible] Harlin are the persons who are engaged in the enterprise.

New Diggings on the Clearwater.—From Mr. H. [illegible] who has just returned from Clearwater Bridge we learn that promising hill diggings of considerable extent have been discovered about two miles and a half below Clearwater Station, where they were attracting great attention when Mr. H. left. They are represented to be very deep and rich, and are said to pay from the surface down. This must give a new impetus to affairs on the Clearwater. An abundance of water can be brought upon this ground and preparations are on foot to construct ditches. We shall await further developments with lively interest.—*Radiator.*

[DISPATCHES TO THE OREGONIAN.]

California News

SAN FRANCISCO, June 2.—A large and enthusiastic audience attended the mass meeting held at Platt's Hall last evening to give a public expression of sympathy for Mexico. [illegible] persons were present and many were unable to get into the hall. Dr. Rowell was chosen President. The music of the Marseillaise [illegible] unexpectedly [illegible] of the hall and [illegible] rounds of applause. Speeches were made by Dr. Rowell and Thomas Campbell, [illegible] Generals Ochoa and Vega and others. Every allusion to the Monroe doctrine was received with loud applause. Resolutions were adopted suitable to the occasion and the spirit of the audience, and it was recommended that similar demonstrations of popular sympathy be manifested by public meetings and through the medium of the press. The universal feeling is that Maximilian must leave Mexico.

Samuel McCoitra [illegible] steamb at from [illegible] was burned to death in the great fire at the corner of Jackson and Drumm streets, on Wednesday. No other lives lost.

The losses by fire amount to about $[illegible] 000 on which was about $10 000 insurance.

The *Salvador* pirate case came up to day. J. [illegible] Gould and Frank Pixley are for the defence. Counsel contended that the prisoners had not violated any of the usages of war and had not been guilty of any infraction of its laws, and that at the time Lancasters came on board of the *Salvador* in the bay of Panama all hope in the minds of the prisoners of capturing the steamer had ceased and that when they were [illegible] arrested the intention to commit the act had been abandoned. Pixley's argument closed with a sneer at Capt. Davenport who was congratulated by prisoners that he encountered the Confederate flag for the first time locked up in one of the prisoner's trunks, instead of floating proudly from the peak of a Confederate man of war. This passage created a marked sensation. Adjourned until Wednesday, when the Judge Advocate will argue for the prosecution.

The Spring Valley Water Company to day declared a dividend of fifty cents per share.

There is reason to believe that Henry S. Foot late member of the rebel Senate is now on his way across the plains to California and may be here in a fortnight or three weeks hence.

The mining share market evinces perhaps a trifle more tone though there is nothing like buoyancy apparent.

The *Golden City* carries a large number of passengers to-morrow.

Martin Murphy, sr., died at Warm Springs to day. The Overland Telegraph is reported up as far as Fort Laramie, which is beyond the seat of the Indian difficulties. The line is reported to have been down in the vicinity of Platte river and Fort Kearney since the 23d and is not yet in working order.

From New Westminster.

NEW WESTMINSTER, June 1, 1865.—Victoria papers brought up by the last steamer give an account of the disappearance of Mr. Carswell member of Parliament from Sooke district and member of the firm of Hobden & Carswell, of Victoria. It appears that Mr. Carswell made one of an excursion party to Sooke on the Queen's birth day—that he left the steamer at Thompson's Landing to pay a visit to Miller's store, a short distance off, and that he did not return; had never reached Miller's, and has not been seen or heard of since though large numbers of people have searched the country for thirty or forty miles around. An advertisement appears in the papers, over the name of the firm, offering a reward of one thousand dollars for his discovery.

Weather warm and pleasant. Thermometer 62°.

NEW WESTMINSTER, May 31.—The steamer *Lillooet* arrived from Yale yesterday bringing one hundred and sixty thousand dollars in treasure for the Bank of British Columbia, a Cariboo express and a mail with advices to the 22d. Most of the claims are being worked and many of them paying well. John A. Frazer son of the discoverer of the river which bears his name committed suicide on the 20th. John D. B. Ogley Custom House officer at Bella Coola was murdered on the 7th by one Malone while attempting to arrest him for smuggling. One hundred thousand dollars reward is offered for his arrest.

Mr. Conway of Collin's Overland Telegraph Co. arrived from Victoria on Friday last accompanied by an exploring party commanded by Major P[illegible]. The party will be thirty strong and will proceed to make a preliminary survey of the country lying north of Fort George with a view of ascertaining the best route for the overland telegraph line.

Last Friday a set of agricultural implements and mechanical implements were presented to each of the 30 Indian Chiefs who are visiting our city by the Government, for the use of the villages they represent. They appeared highly pleased with the gift.

Weather for the past week has been cloudy with frequent showers and gales of wind.

[illegible] ALEXANDER.—The late outbreak in reference to [illegible], especially the Coeur d'Alene region is likely [illegible] everything before it—there are hundreds to be [illegible] accepting of the rumors we have given [illegible] any further confirmation [illegible] to the new field. From all we are able to [illegible] there are men here who have had a settled conviction [illegible] richness of that region for years past. [illegible] we learn was in that [illegible] been firmly of the opinion that [illegible] section. Mr. Collins who was in the [illegible] the news came, has received a letter from [illegible] the Cascades stating that [illegible] had caught the contagion and were only waiting [illegible] to return, when they wished to leave for [illegible]. We have not the least doubt but that an [illegible] rich camp has been discovered and [illegible] proximity to the trade and travel of the Columbia [illegible] open another field [illegible] from which shall [illegible] of the wealth of the mountains of Idaho.

They fall due three years from date [illegible] may be collected, or converted into [illegible] per cent. gold bearing bonds at the [illegible]. These bonds are exempt from State, county and town taxation.

THE RIVER.—The river at this point is still gradually rising, but very slowly. If the [illegible] was reported on Thursday [illegible] may not expect a greater increase of water [illegible]—on the contrary if we [illegible] continue rising, [illegible] while the next two weeks will put the flood just [illegible] Front street. For six days [illegible] the water [illegible] inches and stood last evening [illegible] by the mark on the gauge at the O. S. N. Company [illegible], which indicates a height that would [illegible] as at that [illegible] the street.

[illegible] CADETS.—Several young men of the city [illegible] taken active part in the organization of the [illegible] are forming for military improvement in the [illegible], and if they are successful will present [illegible] by the 4th of July. Major [illegible] meeting is to be held at the Armory [illegible] evening at 7½ o'clock this [illegible]. Full attendance is requested of all [illegible].

On Thursdays the [illegible] and Cottonwood Point, and all other [illegible] for towing etc. Whenever [illegible] Capt. Kerns will build up an active little [illegible] at, and his energy deserves reward.

THE POWDER MAGAZINE.—[illegible] doubts about the [illegible], but such is the fact [illegible] that [illegible] the river, at the present high stage [illegible] been washing [illegible] to this powder [illegible] and last Tuesday [illegible] by paying a boat's [illegible] and holding the animal [illegible] hauled the cart.

WEEKLY REVIEW.

PORTLAND, June 2d, 1865.

All departments of trade have been more buoyant [illegible] the last [illegible]. The [illegible] of Idaho City [illegible] which have been given fully during the week [illegible] articles [illegible] and it has continued up to this [illegible].

A new [illegible] at to be [illegible] Columbia river valley, by the [illegible] 11 miles in the Coeur d'Alene [illegible] extent of placer [illegible] than the famous [illegible] and exceeding in [illegible] the [illegible] (Salmon River) camp to the [illegible] in the world, that it is the richest [illegible] quartz [illegible] to the new region and we may expect full reports from the [illegible] which we have the greatest confidence will confirm all yet received [illegible] the new gold field.

The transferring of the steamer *George S. Wright* [illegible] Russian Telegraph Company has left the trade [illegible] between here and Victoria. The steamer *Brother Jonathan* which sailed yesterday took a large part of cargo for Victoria but we could not calculate upon receiving much from there as no regularity exists in the arrangements of the line from California. They having now more fodder [illegible] trade to Portland, will not frequently [illegible] via Victoria.

Arrivals during the week have been four full cargoes of generally assorted merchandise, one of salt, and one lumber. The stock of shipments of flour and grain has partly revived and therefore some considerable quantity of these articles besides wool and furs, went by the steamer yesterday. Vessels generally load with lumber from Oak Point, Westport, and other places on the river.

Stocks still continue dull; there is virtually no sales—nothing to report in that line. There has been little doing in legal tender notes. The rate at the Board being 76@77½ and 78 cents for the week.

Bullion is arriving in considerable quantities. We have $57,000 to report by the messenger of the Express company for Thursday. The steamship carried according to her manifest, $212,000, but how much more we are unable to judge.

There is a very good jobbing trade, but the markets present no material change. The list, embracing all varieties of country produce have been full, but the falling off in exports has created little demand, so that buyers have not been free in offers.

Good lard is scarce and buyers are offering more for it. Bacon has moved to a moderate extent. Butter is in demand at prices noted. Grain, of all kinds in full request.

The Wool Market.

PORTLAND, June 2d, 1865.

We have no more steadiness to report in the wool market than prevailed last week. Wool is in demand at prices ranging from 16 to 17 cents ⅌ lb., for ordinary lots. Choice sells at 19@20 cents. There are no transactions to note among buyers at this place, the shipments being for parties above here, on terms we know nothing of. Small lots are arriving, but we hear of no sales at figures above those given.

Soon the Oregon City Manufacturing Company will be in the market, but there is nothing to indicate what prices will govern their transactions.

Our latest dates from the East are to May 1st, at which time there had been a decided improvement in the demand for domestic wools, the sales of the week being larger than for a long period. The demand was occasioned by the springing up of an inquiry among manufacturers. California and Oregon remained about the same, but there was an advance of 5 cents ⅌ lb on other grades. 70,000 lbs. burry California, and 50,000 lbs fall clipped do, free of burrs, sold at 37½ cents.

Cotton goods were advancing, according to the latest [illegible]. The only change we have to note in prices is an advance of one cent on fancy prints.

WILLAMETTE WOOLEN GOODS—Blankets, gray, $6 37½@8 62½, white, $7 25@$9 40. Tweeds 75@85c; Flannels 37½@45c; Cassimeres 90c@$1 37½.

COTTON GOODS—Bro. Sheeting, best, 33½@35, ordinary, 30@36. Bleached do 30 inch 16@20; do 33in., 27@28; do 36 in., 27@31; do 10-4, 60. Bro Drills, 34. Denims, 25@30; Hickory, 25@27; Linsey, 25; Prints—Merrimac, 18@20; Cocheco, 18@20; Fancy, 17@18. Canton Flannel, 31@33.

Public Sale.

NOTICE is hereby given that by virtue of a warrant issued by order of the Common Council of the City of Portland, and attached to the delinquent tax roll for the year 1863, commanding me to collect the taxes marked thereon as delinquent, I have levied upon and on the 22d day of June, A. D. 1865, I will offer for sale at public auction at the Court House Door in the City of Portland, Multnomah county, State of Oregon, so much of the following described lots and parcels of land as may be necessary to pay the taxes due thereon to the City of Portland, for the year 1863, together with all costs and charges; which land was assessed as the property of the following named persons and described as follows, to-wit:

THE WORLD RENOWNED

SINGER SEWING MACHINES!

MANUFACTORY

182, 184, 186, 188, 190 and 194 Mott street, New York.

MOTTO—"The Singer Sewing Machines are the only Machines that can Sew all kinds of Cloth, and with all kinds of Thread."

Singer's Letter A Family Machine is the best and cheapest Machine in the world for Family Sewing. There is no doubt as to the value of our Machines for manufacturing purposes, but it is only of late that the public began to learn that the essential elements of a Machine best adapted to the heaviest work, would also be the elements to be embodied in a Family Machine.

We would ask for our Letter A Machines the attention of Vest Makers and Dress Makers, and all those who want Machines for Light Manufacturing Purposes. They embody the principles of the Manufacturing Machines, and, like them, the interlocked stitch so justly famed, [illegible] so celebrated for FAMILY SEWING and Light Manufacturing purposes, as our Manufacturing Machines are for manufacturing purposes in general.

FAMILY SEWING MACHINES are valuable in proportion to the number of things they can do well. See what ours can do before making a purchase.

☞ All persons requiring information about Sewing Machines, their sizes, prices, working capacities, and the best method of purchasing, can obtain it by sending for a copy of the SINGER MANUFACTURING COMPANY'S ILLUSTRATED PAMPHLET, which is entirely devoted to the subject. IT WILL BE SENT GRATIS.

ALLEN'S
LUNG BALSAM!

The Remedy for Curing

CONSUMPTION, COUGHS, COLDS,

ASTHMA, CROUP,

Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest and Lungs, Difficult Breathing and all the Diseases of the Pulmonary Organs.

ITS ACTION IS EXPECTORANT, ALTERATIVE, SUDORIFIC, SEDATIVE, DIAPHORETIC AND DIURETIC, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration, and causes the lungs to throw off the phlegm or mucus; CHANGES THE SECRETIONS AND PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect, that it is WARRANTED TO BREAK UP THE MOST DISTRESSING COUGH IN A FEW HOURS' TIME, if not of too long standing. IT IS WARRANTED to give entire satisfaction even in the MOST CONFIRMED CASES OF CONSUMPTION. IT IS WARRANTED NOT to produce costiveness (which is the case with most remedies) or affect the head, as it contains no Opium in any form. IT IS WARRANTED TO BE PERFECTLY HARMLESS to the most delicate child, although it is an active and powerful remedy for restoring the system. THERE IS NO REAL NECESSITY FOR SO MANY DEATHS BY CONSUMPTION, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.

LILLIE'S LOCK OPENED
In One Minute.

NEW YORK, September 2, 1864.

F. TILMAN, Esq., 318 Battery street,
Between Commercial and Clay, San Francisco.

DEAR SIR: WE NOTICE AN ADvertisement in your daily papers respecting the security of the Lillie lock. We are aware that you well understand this lock and [illegible] will not allow yours [illegible] such representations. We have just sent for one from one of the factory and he in our presence opened one of Lillie's best safe locks, after it had been locked and the combination turned on,

By One Blow of the Hammer

Against the knob on the outside, and thereby breaking the [illegible] bolt inside.

The whole time occupied in opening the lock was about ONE MINUTE. We send you this lock that your friends may not be deceived by false representations, etc.

GLOUCESTER, March 26, 1864.

Messrs. TILTON & McFARLAND,
Safe Manufacturers, Boston, Mass.

Gentlemen: From representations made by Mr. Lillie, I was induced to purchase of him one of his

So Called "Fire Proof Safes."

On the 18th of February last, a fire occurred in our block which destroyed a number of buildings, and our own with the rest. We trusted our books, papers and all in the safe. After the fire, the so-called "safe" was taken from the ruins, and on opening it we found that

Everything had been Destroyed.

We send you the safe with what is left of the papers and you will see that not one of them is legible or strong enough to sustain its own weight. Having the curiosity to know how our neighbors fared in this fire, we noticed McKenzie & Hardy just opening their safe (TILTON & McFARLAND'S make) and its contents were found to be

In Perfect Condition.

This led us to further investigation, and we found to our astonishment that from the large amount of combustible material in Messrs. McK. & H.'s cellar—such as lard, pork, etc., their safe was subjected to a much greater heat than that of our own, we being in the clothing business and had but little in the cellar. There was another of Lillie's safes here subjected to the same fire faring, however, no better than ours.
Very respectfully,
Your obedient servants,
(Signed:) GEO. L. CHESBORO & CO

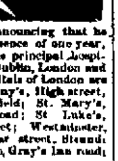
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES!

Dr Gibbon's Dispensary,



617 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs, etc. Fully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year, during which time he has visited all the principal hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield; St. Mary's, Camb Place, Pad Lock, Harrow road; St. Luke's, Old street; University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand, London, Whitechapel road, Royal Free, Gray's Inn road; King's College, Portugal street.

DOCTOR GIBBON has also visited Doctors Acton of London, Parker of Birmingham, England, and Ricord of Paris; who are considered the best physicians and surgeons in the world, and whose authority is acknowledged to be the highest in the treatment of Sexual Diseases.

DOCTOR GIBBON has obtained from them their new mode of treatment which cannot be surpassed.

DOCTOR GIBBON has spared neither time nor money in seeking out new remedies, and has returned with new facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies; see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz. Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Prevention Better than Cure.

The newly invented Patent French Safe, a sure Preventive against Disease and Pregnancy, sent by mail. Price $2. Address DR. J. F. GIBBON, 617 Kearney St., near Commercial, San Francisco. Post Office Box 252.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus diplomas and certificates, dupe the unwary. Some of these self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make inquiry. It will cost you nothing and may save you many regrets, for as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Doctor Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Doctor Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.
